## **Enduring Love and Sexuality: The Enneagram as the Path**

*Presented by Dr. David Daniels*

What is love? How do we know love, manifest love and experience love?  
How can we integrate our higher qualities, the virtues, to create divine sexuality in our intimate relationships?

We will take a comprehensive and integrative approach to answering these questions, looking at our personality structure through the lense of the Enneagram, along with our sexuality, biology, soul and spirit.

While primarily exploring intimate relationships, this workshop is for *all* vital relationships.

- Feel better when experiencing others
- Understand the effect of gender and biological difference in relationships
- Grasp the core practices for developing our relationships
- Work with the key ways our personality enhances or diminishes our sexual experience

*Dr. David Daniels, M.D. is a leading developer and teacher of the Enneagram. In private practice for over 40 years, David has taught the Enneagram at Stanford, in the community and internationally for 25 years. David is Clinical Professor, Department of Psychiatry and Behavioral Sciences at Stanford Medical School and co-founder of Enneagram Studies in the Narrative Tradition.
